Fire safety circular

What to do in case of fire

1. Raise the alarm and call 101. 2. Do not use the lift. 3. Move to the assembly point near the clubhouse. 4. Help elders and children first.

Extinguishers

Extinguishers are placed on every landing and checked every quarter. Please do not block them.

Residents needing assistance

Residents who cannot use stairs are requested to inform the committee so that a volunteer can be assigned to them during a drill.
